Lead Full Stack Engineer with 12 years of experience architecting and building web, mobile, and cloud applications for large enterprises. Deep expertise in **Angular**, **React**, and Microfrontend architecture, with hands-on full stack delivery across **Node.js**, **Python**, **SQL**, **NoSQL**, **AWS**, **Azure**, and **GCP**.

Experience

Fair Isaac India Software Pvt. Ltd. (FICO) Bengaluru, India
Lead Engineer Oct 2024 - Oct 2026

- Architected a feature-authoring platform that lets financial institutions map their systems to FICO systems for downstream analytics, built as Microfrontends (MFE) with **Angular 20**, **TypeScript**, and **Module Federation** on **AWS**, including embedded MFEs that expose business terms and features to other teams.
- Engineered **Node.js** Backend-for-Frontend (BFF) API layers, giving the frontend a stable contract with the asset service.
- Automated testing with **Jest** and **Playwright** to catch regressions before release.
- Won the worldwide AWS Cost Optimization Hackathon with a custom **XGBoost** model trained on AWS usage data, which identified **17,000** savings parameters worth **$4M** a year.

IBM India Pvt. Ltd. Bengaluru, India
Senior System Analyst Jan 2022 - Oct 2024

- Engineered a Microfrontend (MFE) solution for a logistics platform using **Module Federation** and **Angular 14**, with multiple independently deployed **TypeScript** applications.
- Pioneered a reusable **React 18** UI Component Library that reduced development time by **40%** for a global financial markets client, and resolved state-handling and performance bottlenecks across its enterprise UI.
- Developed **Node.js** REST services backed by **PostgreSQL** and **MongoDB**, running on **AWS** and **Azure**.
- Modernized legacy enterprise UIs by refactoring tightly coupled modules into reusable components, and enforced quality through architecture reviews and **Playwright** end-to-end tests.

Accenture Solutions Pvt. Ltd. Bengaluru, India
Application Development Specialist (Team Lead) Apr 2021 - Jan 2022

- Designed distributed enterprise applications for a global technology client using **Angular 12**, **React 17**, **TypeScript**, **Node.js**, **PostgreSQL**, and **MongoDB**, running on **AWS** and **GCP**.
- Boosted application performance by **30%** across LCP and load time by modularizing data handling, reducing render times, and optimizing API usage.
- Led a team of 6 developers, balancing feature delivery with technical debt reduction.

Blue Space Labs Pvt. Ltd. Remote
Associate Technical Lead May 2020 - Apr 2021

- Orchestrated end-to-end development of the Bluwyre MVP with **React 16**, **Node.js**, and a shared UI Component Library: a distributed, **Kafka**-backed omnichannel messaging platform where businesses connect their software once and send any message over **WhatsApp**, **Viber**, or **Telegram**.
- Migrated legacy **PHP/MySQL** modules to **Node.js** REST APIs, delivered cross-platform mobile apps with **Ionic**, and managed deployments and media pipelines on **AWS**.
- Led 15 mobile and web developers across 2 cross-functional teams for an international telecom client.

Bridgera LLC (Spectraforce) Kolkata, India
Senior Software Engineer Jan 2020 - May 2020

- Engineered distributed, event-driven real-time dashboards for healthcare IoT products with **Angular 8**, **Node.js**, **MongoDB**, **MySQL**, **Socket.IO**, and an **EMQX MQTT** broker on **AWS**.
- Contributed to **Ionic** companion mobile apps and **core PHP/MySQL** admin modules, and collaborated with the embedded team on IoT firmware integration and telemetry.

Cognizant Technology Solutions Kolkata, India
Associate Oct 2014 - Jan 2020

- Engineered a B2B bullion trading platform with **React 16**, **Node.js**, and **PostgreSQL** for a global bank.
- Developed an IoT dashboard with **Angular 6**, **Node.js**, and **PostgreSQL** for an auto finance client, streaming telematics from leased vehicles through an **EMQX MQTT** broker for tracking and geofencing.
- Designed an end-to-end distributed document processing system with **Angular 4**, **Node.js**, **AWS SQS**, **PostgreSQL**, and **MongoDB** for a global education client.

- Created a no-code CMS/LMS for the EdTech industry with a drag-and-drop page builder, using **Angular 2** and a custom **PHP** backend.
- Extended **Liferay** for a healthcare client and **Salesforce** business modules for a large hospitality client, developing UI and injecting custom **JavaScript** to override platform behavior.
- Implemented **WCAG AA accessibility** for a global airline's website with **HTML5**, custom **CSS3**, **jQuery**, and **JavaScript**.

Education

B.P. Poddar Institute of Management & Technology — Kolkata, India
Bachelor of Technology in Electrical Engineering; CGPA: 7.75 — 2010 - 2014

Army Public School, Barrackpore — Kolkata, India
Higher Secondary (CBSE AISSCE); 83% — 2009 - 2010

Army Public School, Barrackpore — Kolkata, India
Senior Secondary (CBSE SSC); 86% — 2007 - 2008

Skills

Languages: JavaScript (ES6+), TypeScript, Python, PHP (7+), SQL

Frontend: Microfrontends (MFE), Module Federation, Angular (2–20), RxJS, NgRx, NgXs, PrimeNG, React (16–19), Next.js, Redux, Redux Thunk, Zustand, TanStack Query, Ionic, Tailwind, Bootstrap, jQuery, HTML5, CSS3, SCSS, SASS, LESS

Backend: Node.js (Express.js), Python (FastAPI), REST APIs, Socket.IO

Databases: SQL, PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS, Azure, GCP, Heroku, Docker, GitHub Actions

Testing: Jest, React Testing Library, Jasmine, Karma, Playwright

Tools: GitHub, Bitbucket, GitLab, Postman, Insomnia, Jira, Trello, ClickUp, Claude, Cursor, GitHub Copilot

Certifications

- Executive PGP in Applied AI and Agentic AI (upGrad) – Ongoing
- JavaScript Full Stack Developer Certification – Issued Jun 2023
- IBM Garage Essentials Certification – Issued Jan 2023
- Microsoft Certified: Azure Fundamentals (AZ-900) – Issued Jan 2022

Awards

- AWS Cost Optimization Hackathon (FICO) – Winner, Worldwide (May 2026)
- ServiceNow Create-A-Thon (Cognizant) – Winner, Kolkata (Jan 2018)
- Digital Champion of the Quarter (Cognizant) – Jan 2017
- Present Around The World – The Institution of Engineering & Technology (Mar 2012)

Languages

- English (Native/Bilingual)
- Hindi (Native/Bilingual)
- Bengali (Native)

Interests

- DIY Electronics
- Chess (5-minute Blitz)
- Off-road Motorcycling
